29 - What is the greatest strength of this class?

- Hands on learning with great feed back from Dr Rush.
- The content was fun.
- The instructor was always organized.
- It is an interesting and sometimes difficult subject, but Professor Rush is very good at teaching it. He's great at keeping students engaged and preparing us for assignments.
- How clear and concise Prof. Rush's expectations were for the students and the class. He was very to the point and knowledgeable with all of his lectures.
- The technical aspect is extremely helpful.
- learned the basics of web design.
- Everything worked well so that we could learn how to code in html and css.
- Everything!
- Having different applications to complete the required work. I enjoyed in-class work time because it gave us students the opportunity to ask questions as we encountered difficulties.
- I really liked how all of the lectures were well organized and everything we learned built on what we learned previously.

30 - What improvements can be made in this class?

- cant think of any
- Slow down the lectures
- This class is extremely difficult for a business elective. There were way too many assignments in the class. I felt like I was playing catch up all semester. I felt like I was never showed properly how to design a web page, rather just expected to do so. If you are not a software design expert I would recommend not taking this class because it was so hard.
- Sometimes lectures went a bit too fast and it was hard to keep up. This did get better later in the semester though. Also, I feel like we did not get quite enough time for our final project. By the time all of the other assignments were over it was time for Thanksgiving break, when campus labs close, and a lot of students do not have access to this software/computers in general, leaving a whole 4-5 days where they cannot work on it right before it is due.
- Add more due dates/deadlines for the course material.
- None.
- None this class was fun but difficult.
- none
- Nothing!
- The class room can be loud at times making it difficult to hear the instructor.
- The only problem I had with this class was that our practices and assignments weren't graded until the end of the class basically.

31 - Other comments?

- I think the way you teach this class close to perfect.
- Professor Rush is one of the best professors I've had at this university to date. I hope that I can take several other classes that he teaches in the future.
- Excellent class.
- Great class. I learned a lot about how to design a website.
- Dr. Rush is an AWESOME instructor!
- I really enjoyed this class and learned a lot from it!

29 - What is the greatest strength of this class?

- A ton of hands on with a wonderful professor.
- basic knowledge of web design
- Very hands on class throughout the entire semester.
- This class was great for those of us who had no HTML and CSS experience. It covered a LOT of material, and was intense, but flowed nicely. The resources we were given were really great. Professor Rush is absolutely wonderful. He is very knowledgeable, great at explaining material, and ALWAYS seems to go out of his way to help us succeed. His understanding and willingness to always go above and beyond to help is so so appreciated!
- In class assignments really helped reinforce the teachings.
- The content was interesting

30 - What improvements can be made in this class?

- This class was great. I have no recommendation for improvement. The class was difficult but worth it.
- Maybe having some more in class examples, some of the homework assignments in the book were difficult due to the book asking for things that I wasn't entirely sure what it wanted.
- N/A
- None that I can think of! I took this course last year and had to stop halfway and re do it for some personal life reasons, and I really like the new structure of it all!!
- Needs not be improved.
- The professor never graded anything.

31 - Other comments?

- This has been my favorite lecture by far.
- N/A
- Awesome class!
